

Bioriginal Europe/Asia receives MSC certification

Den Bommel, February 2014

This month Bioriginal Europe/Asia B.V. received the Marine Stewardship Council (MSC) Certification. This means Bioriginal can now supply AlaskOmega® fish oil products with certified sustainable seafood MSC logo. The certification is for Chain of Custody of Alaska Pollock oil, includes processing, storage, trading, transportation and wholesale. So both deliveries of AlaskOmega® oil products from Bioriginal's warehouse as from the production/blending facilities in Den Bommel can be delivered with MSC certificate.

This MSC - Certified sustainable seafood certification fits with Bioriginal's goal to be a worldwide leader in sustainable Omega products and solutions.

In November 2013 Bioriginal Europe/Asia BV and Organic Technologies finalized their exclusive distribution agreement for the AlaskOmega® product range. This range includes a broad Omega-3 ingredients consisting of natural wild Alaskan fish oils, ethyl ester (EE) concentrates, and triglyceride (TG) concentrates. One of the unique characteristics of AlaskOmega® is that it is the only Omega-3 fish oil concentrate worldwide that is certified as sustainable by the Marine Stewardship Council (MSC).

About Bioriginal

Bioriginal is a global leader in delivering Omega products and solutions. With over 20 years of global expertise in plant and marine-based Omegas we create unique and efficacious Omega solutions with and for customers. For more information, please visit www.Bioriginal.nl.

About AlaskOmega®

Organic Technologies is the producer of the AlaskOmega® Omega-3 fish oil products which are "Caught in Alaska, Refined in Ohio." We start with wild-caught Alaska Pollock oil from the cold, clear waters of the Bering Sea, which is further refined and concentrated in our family-owned and operated NSF-certified GMP facility in Coshocton, Ohio. AlaskOmega® is available in EE and TG concentrates up to 85% Omega-3 content as well as natural wild Alaskan fish oils. Please visit www.AlaskOmega.com for more information.
