

AlaskOmega® OMEGA-7 CONCENTRATES

Why AlaskOmega Omega-7 concentrates?

AlaskOmega Omega-7 concentrates are MSC-certified and derived from wild Alaska Pollock. They deliver up to 7 times more Palmitoleic acid Omega-7 than other Omega-7 sources.

TRULY SUSTAINABLE

AlaskOmega Omega-7 concentrates are from a truly sustainable source. Certified by the Marine Stewardship Council (MSC).

MORE CONCENTRATED

Highly concentrated AlaskOmega Omega-7 (C16:1 Palmitoleic Acid) allows for smaller capsule sizes and multi-ingredient formulations.

AlaskOmega® Omega-7 500
Contains 500 mg/g Omega-7

AlaskOmega® Omega-7 700
Contains 700 mg/g Omega-7

100% traceable supply chain

- 1 Pollock caught in the Bering Sea, Alaska
- 2 Quickly processed into oil
- 3 Dedicated rail cars transport processed oil from Seattle, WA to our cGMP refinery in Eastern Ohio
- 4 Oil is further processed, refined and concentrated into our Omega-7 ingredients

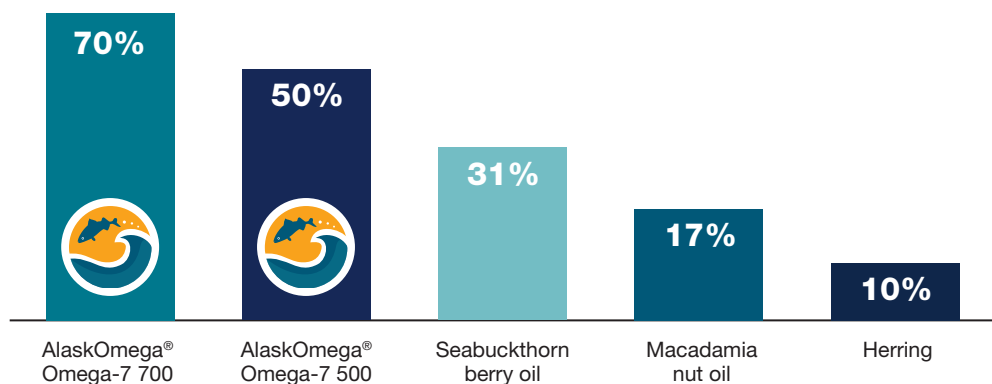

AlaskOmega® Omega-7 concentrates: up to 7x more potent than other Omega-7 sources.

7x more than Herring

4x more than Macadamia nut oil

2x more than Seabuckthorn berry oil

Data as of 2/2017.

THE MANY HEALTH BENEFITS OF OMEGA-7*

Cardiovascular health

Helps to normalize lipid profiles (healthy cholesterol, triglycerides, and CRP levels). Supports healthy circulation and overall cardiovascular (or heart) health.

Satiety & weight management

Improves satiety (feeling full), helping to reduce food intake as well as improving fat metabolism.

Insulin function

Supports healthy glucose uptake and utilization; promotes healthy insulin function and blood sugar management.

Healthy skin, hair & nails

Moisture replenishment of mucosal membranes; promotes healthy, moist skin.

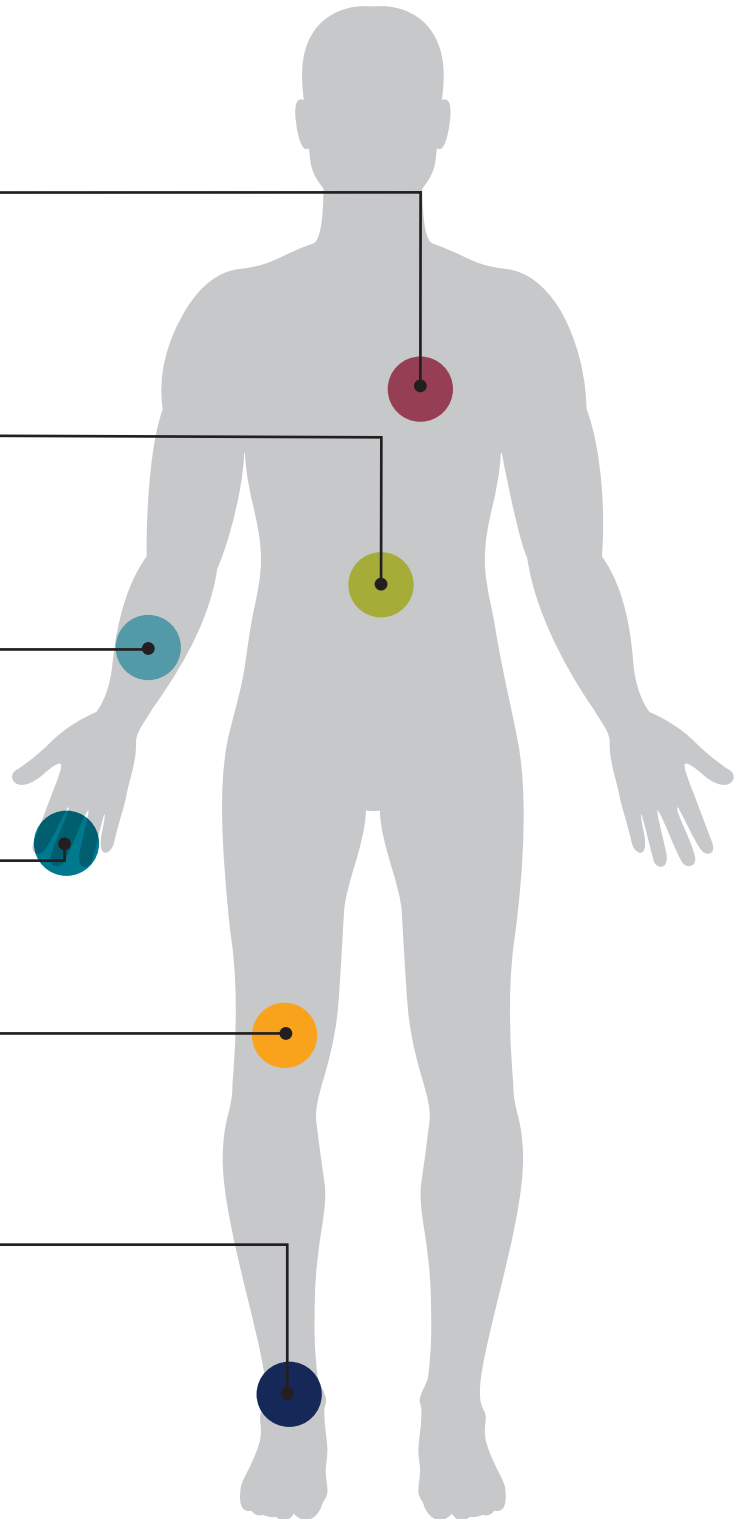

Skin regeneration & hydration

Skin tissue regeneration has been reported, suggesting healing benefits of omega-7 on burns, wounds, and skin irritations.

Healthy inflammatory response

Omega-7 has been shown to support and manage healthy cellular metabolism.
